

Professional Summary

Highly experienced Machine Learning Engineer with 5+ years of professional experience in designing, developing, and deploying machine learning pipelines, and 5+ years of research and industrial experience in Natural Language Processing. Proven track record of successfully publishing research findings and applying them to production problems. Skilled in Python, PyTorch, TensorFlow, and Hugging Face Transformers, with a solid understanding of transformer architectures and NLP techniques.

Core Skills

Machine Learning • Natural Language Processing • Python • PyTorch • TensorFlow • Hugging Face Transformers • Transformer Architectures • NLP Techniques • MLOps • CI/CD • Model Serving • Evaluation Methodology

Professional Experience

****Senior Machine Learning Engineer**** | ***Affinity***

- Designed and executed a personalized recommender system tailored for an e-commerce platform, leveraging collaborative filtering and deep learning methodologies, resulting in a remarkable 20% improvement in click-through rates.
- Built and maintained data pipelines for data cleaning, annotation, augmentation, and versioned training corpora.
- Deployed, served, and monitored models in production, including latency, cost, and reliability trade-offs.
